

## Lovibond® PM 600 Pool Photometer the *ultimate* in Pool Photometers

The PM 600 photometer brings pool testing to the next level. The ergonomic, portable, waterproof design enables users to select just one unit for accurate analysis of up to 12 parameters anytime and anywhere.

The PM 600 focuses on the main pool parameters required for balanced water including: Alkalinity, Bromine, Chlorine, Cyanuric Acid, Iron, Calcium Hardness, Copper, Sodium Hypochlorite, Ozone (DPD) and pH-value. It's designed to be robust, reliable yet easy-to-use.

The unit offers a large, back-lit graphic display to aid analysis by providing on screen prompts. The internal memory is capable of storing up to 1000 results with date, time and sample ID. These results can be reviewed at any time and can be downloaded to a PC.

### **Order a PM600 from Sterling and receive a Pool Sampler absolutely FREE (normally retails at £50)**

(offer expires on the 15<sup>th</sup> February 2013)
